• dhanush-m.vercel.app

PROFESSIONAL SUMMARY

Full Stack Developer specializing in production-grade **healthcare and clinical workflow applications** using the **MERN stack** and **React Native**. Experienced in engineering scalable REST APIs with JWT/RBAC authentication, optimizing MongoDB performance by 30%+, and delivering cross-platform mobile experiences for medical professionals. Strong foundation in **Python, DSA, and OOP** with hands-on CMS and agile development expertise.

TECHNICAL SKILLS

Languages	Python, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Frontend	React.js, Redux Toolkit, Context API, Tailwind CSS, Material UI, Responsive Design
Mobile	React Native, Expo, Cross-Platform Development (iOS & Android), Push Notifications
Backend & Frameworks	Node.js, Express.js, Flask, RESTful APIs, JWT Authentication, RBAC, Middleware Architecture
Databases	MongoDB, Mongoose ODM, Aggregation Pipelines, Query Optimization, PostgreSQL, MySQL
Core Competencies	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Design
CMS & Content	WordPress (Custom Themes, Plugins, Hooks, REST API), Headless CMS, PHP
DevOps & Tools	Git, GitHub, Postman, Vercel, Render, Firebase, CI/CD, Agile/Scrum, Jira

WORK EXPERIENCE

Software Developer — Full Stack & Mobile

August 2026 – Present

Harvee Technologies · Bengaluru, India

- Architect and deploy **full-stack web and mobile applications** using the MERN stack and React Native across healthcare and e-learning domains, serving **500+ active users**.
- Engineer **secure Node.js/Express REST APIs** with JWT authentication, refresh token rotation, and role-based access control (RBAC) for multi-tenant clinical platforms.
- Optimize **MongoDB aggregation pipelines** and compound indexing strategies, reducing query response times by **over 30%** and improving dashboard load performance.
- Build custom **WordPress CMS infrastructures** with ACF and plugin architectures, reducing editorial turnaround by **40%**; collaborate in Agile/Scrum sprints with Git-based code reviews.

Python & Backend Developer Intern

2025 – 2026

PySpiders · Bengaluru, India

- Built and tested **RESTful web APIs** using Python and the Flask framework, handling request routing, data validation, and SQL database integration.
- Applied core **Data Structures & Algorithms (DSA)** and Object-Oriented Programming (OOP) concepts to optimize execution time, memory usage, and logic workflows.
- Developed modular, maintainable code following **PEP 8 standards** and utilized Git for version control and branch management.

FEATURED PROJECTS

RxDx — E-Learning & Continuing Medical Education (CME) Platform

React.js, React Native, Node.js, Express.js, MongoDB, Redux Toolkit, JWT, Video Streaming

- Engineered a **medical e-learning platform** for physicians with accredited courses, HD video lectures, and interactive case-study assessments — onboarding **200+ doctors**.
- Developed cross-platform **React Native mobile modules** with offline caching via Redux Toolkit, enabling uninterrupted study in low-connectivity environments.
- Built a secure backend managing course catalogs, doctor credentials, evaluation quizzes, and **automated certificate generation** with dynamic PDF rendering.

ZureSmile — Clinic & Doctor Practice Management System

React.js, Node.js, Express.js, MongoDB, WordPress CMS, Email/SMS Webhooks, Calendar API

- Architected an integrated **clinic management portal** with real-time doctor availability calendars, double-booking prevention, and patient intake workflows — managing **1,000+ monthly appointments**.
- Integrated a **WordPress CMS layer** for clinic profiles, service catalogs, and patient FAQs — reducing content update time by **60%** without developer intervention.
- Engineered an **automated notification pipeline** for appointment confirmations and reminders via email/SMS webhooks with **99.5% delivery rate**.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science & Engineering, Honours in Cyber Security

2022 – 2026

Hindusthan Institute of Technology, Coimbatore, Tamil Nadu · CGPA: 8.12

CERTIFICATIONS & TRAINING

- **HCL GUVI** — Certified in Data Structures & Algorithms (DSA) and Flask Web Framework Development, covering algorithmic problem-solving, Python backend engineering, and RESTful API design

ADDITIONAL

- **Competitive Chess Player & Coach** — Train young minds in tactical visualization and strategic planning; skills reinforcing systematic software architecture and debugging.
- **Open Source Contributor** — Maintain and publish developer tools and utility libraries on GitHub.
